Steel and plastic protective ground sleeves strengthen the base of the pole at the point of anchoring from corrosion and enviromental impacts.

PLASTIC CAPS

Plastic caps cover the upper opening preventing water from flowing in to the pole.

PRODUCT CODE	TYPE (diameter)
4500000048	Z 48
4500000060	Z 60
4500000076	Z 76
4500000089	Z 89

PLASTIC POLE BASE

PRODUCT CODE	TYPE P D/H	weight (kg)
4100950900	P 95 / 900	5,5
4101451000	P 145 / 1000	6,5
4101451200	P 145 / 1200	9,0
4101801500	P 180 / 1500	11,0

Plastic bases provide protection for the electrical equipment. The base consists of two parts held together by screws. One part features a door with a D keylock. In the upper part the base is fitted with a seal made of microporous rubber to protect against leakage.

Can be colour coated according to RAL scale.
